

Respecting Open Source Licenses !

OSLiC & OSCAd

Das Open Source License Compendium & der Open Source Compliance Advisor

Freie Tools zur Vereinfachung der lizenziadäquaten Nutzung von Open Source Software

Open Source CompLianCe in Deutsche Telekom

Karsten Reincke, Greg Sharpe

Erleben, was verbindet.

R^{OS}L!

Open Source thinks **the other way round:**

You ever have to know, what you have to do!

“PAYING” BY **DOING**

ROSL!

Open Source thinks **the other way round:**

Respect the rules and you are allowed ...

69

(with respect to
2012-05-11) OSI
certified

Open Source
Licenses

> 5

'use', 'modify', 'distribute',
'modify & distribute',
'embed' as

Open Source **Use**
Cases

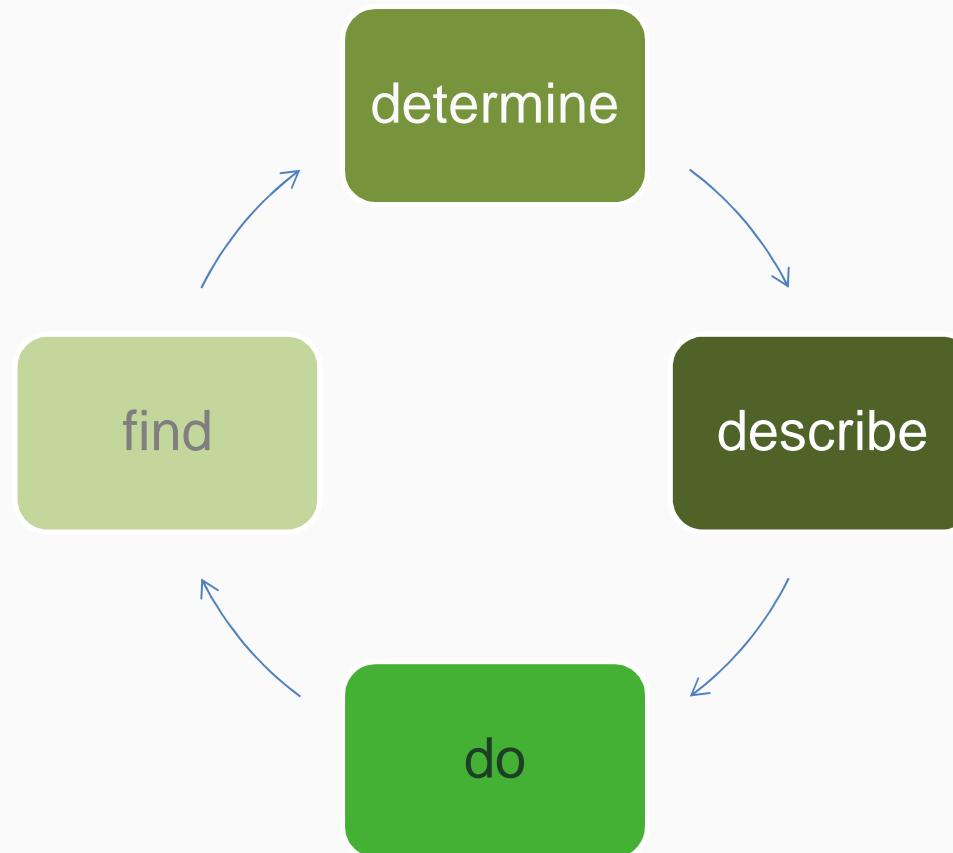

> 345

more or less similar
lists of required
actions as

Fulfilling **Task**
Lists

R^{OS}L!

Open Source thinks **the other way round**:
Respect the rules and you are allowed to use, to modify, and to distribute ...

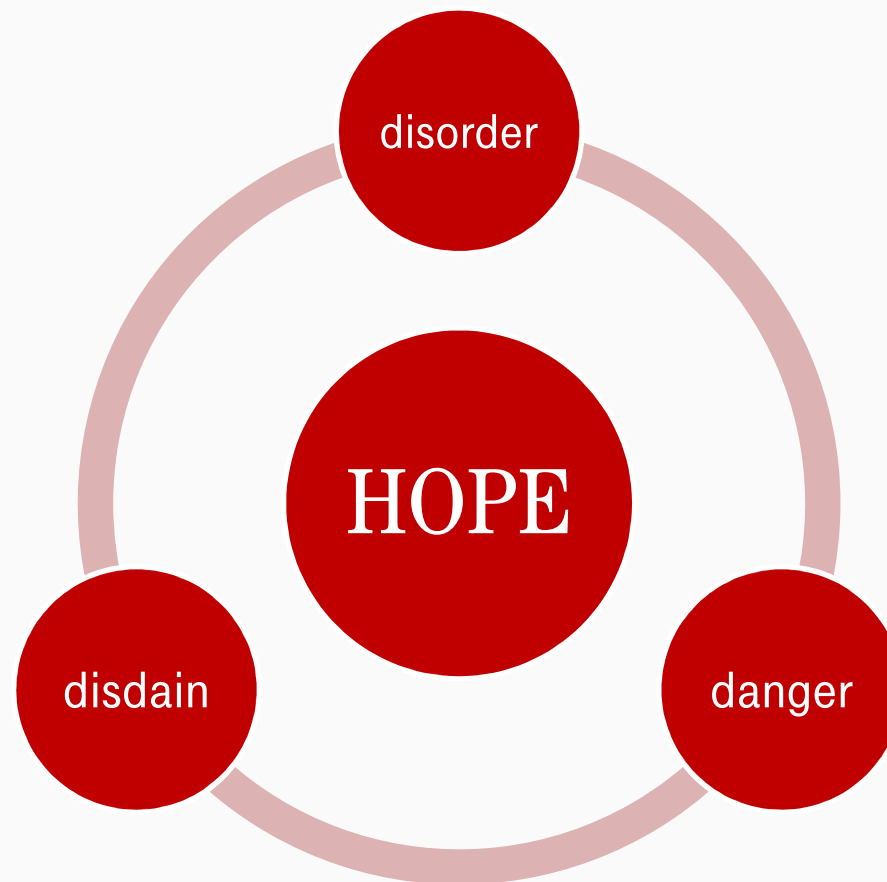

R^{OS}L!

Open Source thinks **the other way round:**
Respect the rules and you are already allowed to use, to modify, and to distribute the results!

WHO SHALL DO THAT?

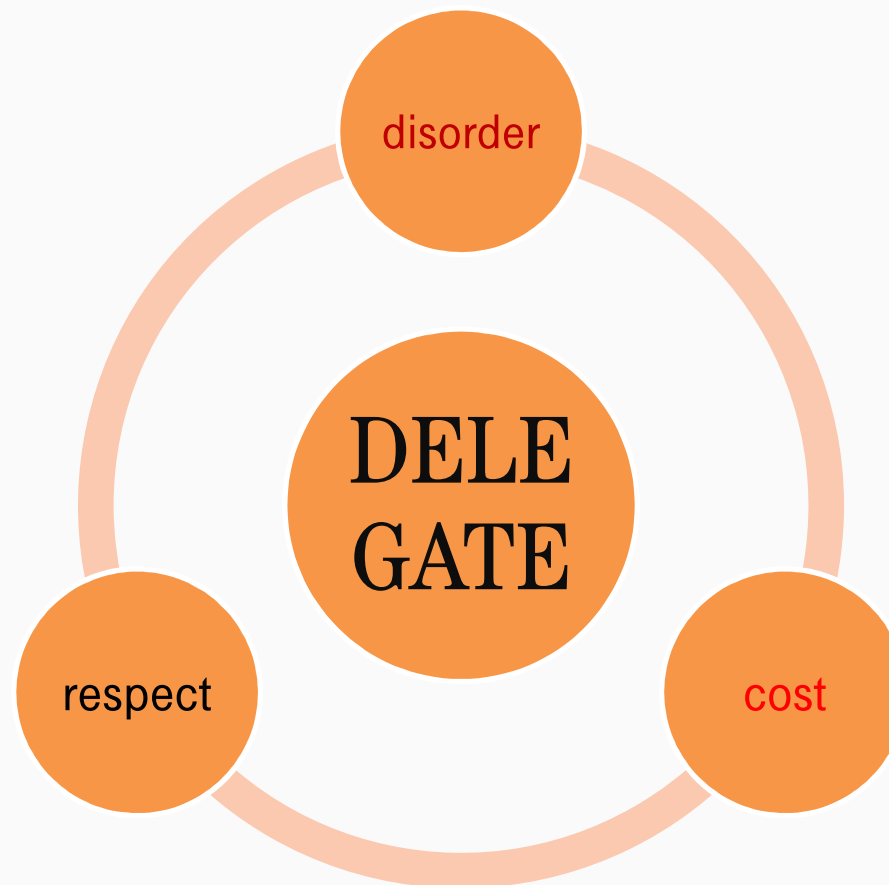

R^{OS}L!

Strategy 'Hope'
I don't care - anyone will do it!

ROSL!

Strategy 'Delegate'
Each project for itself!

R**OS**L!

Strategy '**Centralize**'
One team of OS License Experts for all.

R**OS**L!

Strategy '**Collaborate**'
Use the OS Community Knowledge.

R**OS**L!

What 's the strategy of **Deutsche Telekom**?

Take the best of all.

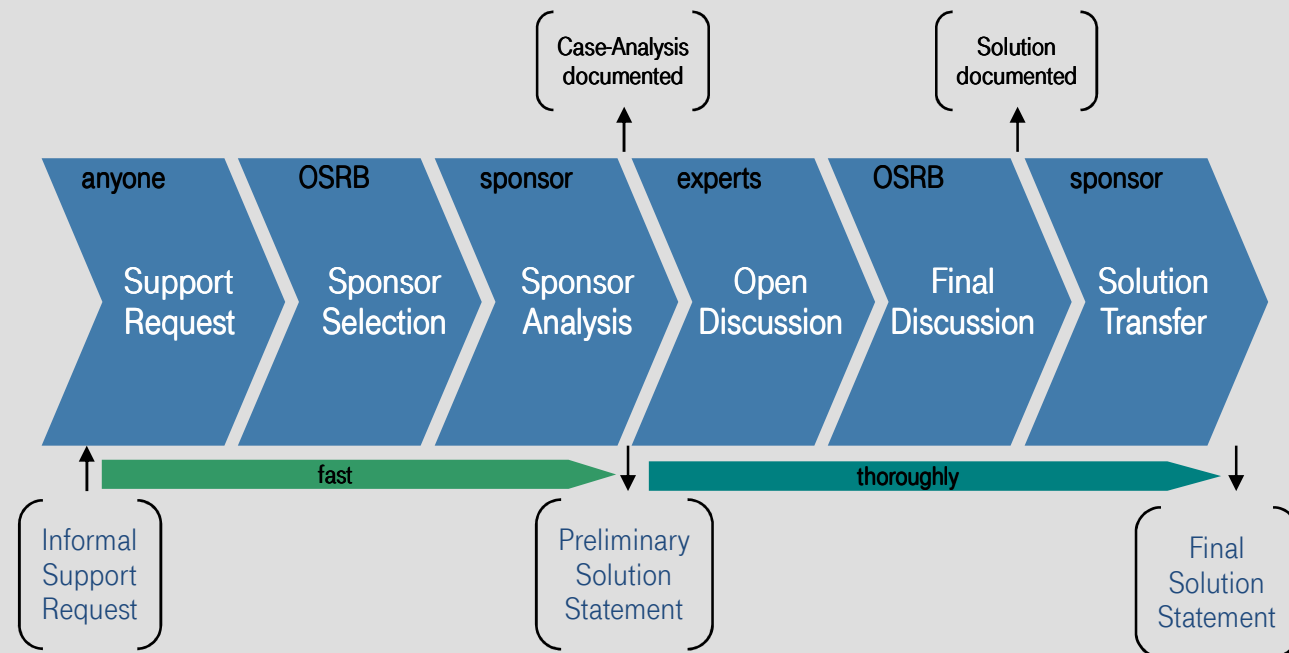

CENTRALIZE & **COLLABORATE**

R^{OS}L!

Centralize an internal team of experts
named the (Telekom) Open Source Review Board

the
Telekom
internal
**Open
Source
Review
Board**
process

The 6 Steps of Handling an Open Source License Support Request

R^OS^L!

Centralize and know that pareto will strike back!

The same work must be repeated to often.

80 % of the requests are manageable by

20 % standard answers!

R^{OS}L!

Centralize, but allow the internal delegation ...
Nevertheless!

Simplify your life:

enable the employees – but ...

ROSL!

Centralize, but allow the internal delegation ...
if it's supported by a simple tool!

... but without being disruptive,
without losing quality, and without
generating extra cost:

R**OSL!**

Solution?

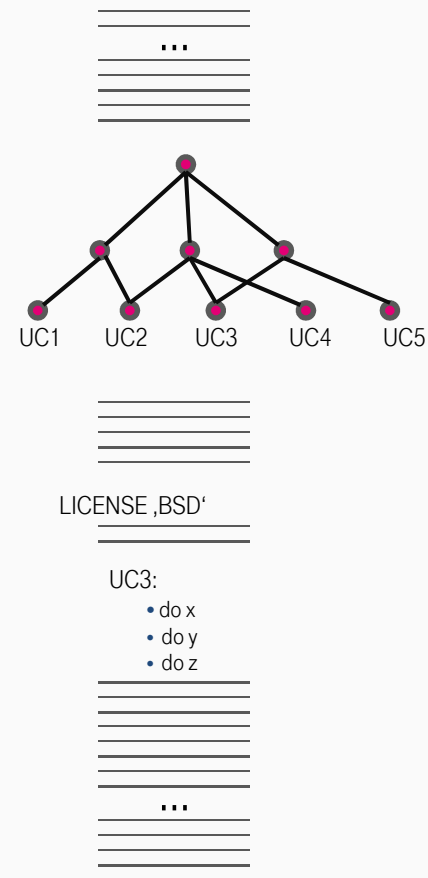

Open Source License Compendium

The only thing we need is an easily to
use **Open Source License Compendium**

R^OSL!

Solution!

Open Source License Compendium

FINDER

context specific
TO-DO-LISTs

R**OSL!**

Solution?

Open Source License Compendium

Unfortunately such an **Open Source License Compendium** did not exist.

ROSL!

Enable the internal **delegation**

... of handling the standard cases ...

Telekom is writing an Open Source License Compendium

Mission: Support our developers to use Open Source Software compliantly – **as easy as possible**

Motto: Offer **one reliable way** for each license and each use case in a simple and easy to find manner

R^{OS}L!

But enable also the **external collaboration!**

The swarm always knows more than a small group of experts:

Telekom is giving it free: The Open Source License Compendium

- is **commonly developable** because of its LaTeX/BibTeX nature
- is **publicly hosted** as a GitHub project
 - Oslic Projectpage (on GitHub): <https://github.com/dtag-dbu/oslic>
 - Oslic Homepage (on GitHub): <http://dtag-dbu.github.com/oslic>
- is **licensed under CC BY-SA 3.0 DE***
 - <http://dtag-dbu.github.com/oslic/en/oslic/license.html>
- is open to **be collaboratively developed together with the community**

ROSL!

Be **invited**, be **welcome**!

We want to collaborate.

Telekom is giving it free: The
Open **S**ource **L**icense **C**ompendium

? What

– the hell –

does all that mean **concretely** ?

Demo or **Die**!

R^{OS}L!

Feedback?

... on the way

enormously
helpful

great
work

very
informative

FSFE European Legal & Licensing
Workshop 2013, Amsterdam

need's an
interactive
interface

so
daunting

R^{OS}L!

Collaborating with the community means **Listening**
... to the feedback:

The interactive version of the OSLiC, the Open Source Compliance Advisor

- is **commonly developable**: a php web application
- is **publicly hosted** as a GitHub project
 - OSCAd Projectpage (on GitHub): <https://github.com/dtag-dbu/oscad>
 - Oslc Homepage (on GitHub): <http://dtag-dbu.github.com/oscad>
- **is licensed under AGPL**
 - <http://dtag-dbu.github.com/oscad/en/oscad/license.html>
- is open to **be collaboratively developed together with the community**

ROSL!

So again: be **invited**, be **welcome**!

We want to collaborate.

Telekom is offers a second free tool: The
Open **S**ource **C**ompliance **A**dvisor

OSCAd, a sibling of the **OSLiC**
- demo or die!

R^{OS}L!

Be **invited**, be **welcome**!

We want to collaborate.

State of the **OSLiC** & **OSCAAd**

ready for testing :

- use case based **task lists** for Apache, BSD, MIT, MS-PL, PgL, PHP EPL, EUPL, LGPL 2.1/3.0, MPL, GPL 2.0/3.0
- use case based **finder**
- description of the protecting power
- corresponding **license taxonomy**
- **exposition** of the **patent clauses**

still open:

- task lists for AGPL, CDDL, MS-RL, ...
- derivative work exposition
- license compatibility discussion
- OS and money chapter
- permanent host for the OSCAd

R**OS**L!

Be **invited**, be **welcome**!

We want to collaborate.

opensource@telekom.de

<http://dtag-dbu.github.com/oslic>

<http://dtag-dbu.github.com/oscad>

*<http://oscad.fodina.de/>

ROSL!

Be **invited**, be **welcome**!

We want to collaborate.

Many **thanks** for your time and **attention**!

k.reincke@telekom.de
